# Summer Internship 2025

## Web Development Internship – Week 2 Tasks (Using HTML+CSS+JS)
### Theme of the Week: Forms, Interactivity & Intro to JavaScript

## Task 1: Build a Contact Form with Validation (HTML + CSS + JS)

**Objective:** Learn how to create interactive forms and add basic client-side validation.

Instructions:

- Create a `contact.html` page with the following form fields:
  - Name (text input)
  - Email (text input)
  - Message (textarea)
  - Submit button
- Style the form using CSS (make it responsive and user-friendly)
- Add **JavaScript validation**:
  - All fields must be filled
  - Email must be in valid format
  - Message must be at least 20 characters

**Goal:** Learn how to capture and validate user input using basic JavaScript.

## Task 2: Create an FAQ Section with Toggle Effect (HTML + CSS + JS)

**Objective:** Use JavaScript to enhance user experience with dynamic UI interactions.

Instructions:

- On a new page `faq.html`, create a list of **5 questions**.
- When a user clicks on a question, the answer should show/hide (toggle) using JavaScript.
- Use CSS to style each FAQ item attractively (hover effect, icons optional).
- Bonus: Add smooth transition animation for opening/closing answers.

**Goal:** Understand how to manipulate the DOM and add interactive elements to a page.

## Submission Instructions:

- Submit a folder named: `Week2_Name_WebDev`
  - Containing: `contact.html`, `faq.html`, `style.css`, and ﹖
